INSPECTION SUMMARY

GENERAL COMMENT

1. Factory only accepted to select 6 sets(2sets per item) samples for inspection on site, and they claimed that it need to waste large workforce for repack.

2. Factory refused to perform some safety tests on site: earth continuity test, stability test, strain relief test, motor stalling test, leakage test of water tank, the capacity of water tank. Factory claimed that they passed the internal QC testing during production.

3. Could not perform internal check (workmanship), since the factory claimed that it may break parts of product.
